"400 years of welcome in the Ecuadorian Sierra"

## **Stimulating Conferences in Ecuador**

The monastery was the computer of the Middle Ages, a structure where discussion, communication and the sharing of information took place. We enjoy the irony of running such an establishment, in which we host stimulating conferences, at the height of the computer age...

An inspiring and productive meeting in the Northern Andes of Ecuador

With spaces fit to accommodate intimate meetings of 12 up to large-scale assemblies, WiFi and audio-visual equipment and five breakout rooms, the hacienda and El Monasterio de Cusin have hosted inspiring and productive, Ecuadorian and international conferences for the likes of the World Bank, UNESCO, Covey Management, Colón Hotel Management, Fundación Futuro, and the Guggenheim Foundation.
